

VENTEGRA MANAGED CARE FELLOWSHIP PROGRAM

Training pharmacists for tactical managed care

The Ventegra Managed Care Fellowship (VMCF) is a one-year Fellowship offering a practical managed care experience designed to prepare post-graduate pharmacists to help promote healthcare as a social good and transform the administration of healthcare benefits.

Managed care is a complex field of study that encompasses concepts of risk, insurance, benefits, formulary, supply chain, and compliance. Our unique program is designed to allow you to:

- Gain knowledge in pharmacy benefit management, health plan, self-insured payor, vertically integrated health system, government, and pharmaceutical industries.
- Focus on population-based patient care that encompasses the total health care continuum, with an emphasis on policies, guidelines, pharmaceuticals, devices, and tests.
- Learn from experiences centered on the unique Ventegra managed care business model in the following areas:
 - Administration
 - Benefit Operations
 - Business Development and Account Management
 - Health Care Delivery Models
 - Pharmaceutical Contracting and Industry Relations
 - Pharmacoeconomics and Data Analytics
 - Pharmacy Benefits and Utilization Management
 - Research Project

Eligibility Requirements

- Graduate of an accredited College/School of Pharmacy
- Licensed or eligible for licensure in their state of residence
- Prefer previous pharmacy-related work experience

Benefits

- Estimated salary paid \$65,000
- Medical Benefit w/ Dental and Vision option
- 9 Company Holidays
- 5 Days Paid Time Off
- 2 Volunteer days/year
