

## MEDICATION POLICY

**Generic Name:** Tofacitinib

**Therapeutic Class or Brand Name:** Xeljanz®/ XR

**Applicable Drugs** (if Therapeutic Class): N/A

**Date of Origin:** 2/1/13

**Date Last Reviewed/Revised:** 11/21/17

**GPI Code:** 6660306510

### **Prior Authorization Criteria (may be considered medically necessary when criteria I through VII are met):**

- I. Documented diagnosis of Moderately to Severely Active Rheumatoid Arthritis.
- II. History of treatment failure, intolerance, or contraindication to Methotrexate.
- III. Documented failure, intolerance, or contraindication to two preferred biologic products (refer to plan document for the list of preferred products).
- IV. Diagnosis must be established by a rheumatologist.
- V. Minimum age requirement: 18 years old.
- VI. Absence of active serious infection or sepsis.
- VII. Negative TB skin test within the previous 12 months or history of treatment for latent TB infection.

### **Exclusion Criteria:**

- Coadministration of Xeljanz®/ XR with potent inducers of CYP3A4 (i.e. rifampin).
- Coadministration of Xeljanz®/ XR with biologic DMARDs, Otezla® (apremilast), or potent immunosuppressants such as azathioprine and cyclosporine. Examples of biologic DMARDs include the following:
  - Actemra® (tocilizumab)
  - Cosentyx® (secukinumab)
  - Entyvio® (vedolizumab)
  - Kevzara® (sarilumab)
  - Kineret® (anakinra)
  - Orencia® (abatacept)
  - Rituxan® (rituximab)
  - Siliq™ (brodalumab)

---

*Disclaimer: Medication Policies are developed to help ensure safe, effective and appropriate use of selected medications. They offer a guide to coverage and are not intended to dictate to providers how to practice medicine. Refer to Plan for individual adoption of specific Medication Policies. Providers are expected to exercise their medical judgment in providing the most appropriate care for their patients.*

## MEDICATION POLICY

- Stelara® (ustekinumab)
- Taltz® (Ixekizumab)
- TNF inhibitors [Cimzia® (certolizumab pegol), Enbrel® (etanercept), Humira® (adalimumab), Inflectra® (infliximab-dyyb), Remicade® (infliximab), Renflexis™ (infliximab-abda), Simponi®/Simponi® Aria® (golimumab)]
- Tremfya™ (guselkumab)
- Tysabri® (natalizumab)

### Other Criteria:

- N/A

### Quantity/Days Supply Restrictions:

- Xeljanz®: Quantities of up to 60 tablets per 30 days.
- Xeljanz® XR: Quantities of up to 30 tablets per 30 days.

### Approval Length:

- **Authorization:** 1 year.
- **Re-Authorization:** An updated letter of medical necessity or progress notes showing improvement or maintenance with medication.

### Appendix:

N/A
